Memento presented by Mr. Amarnath Program Coordinator, and Mr. G.P. Singh Asst. Program Coordinator Naula Foundation to Hon'ble G. Ashok Kumar (IAS), Director General of National Mission for Clean Ganga

Supported by :

National Mission for Clean Ganga
Department of Water Resources, River Development & Ganga Rejuvenation,
Ministry of Jal Shakti, Govt. of India

State Mission for Clean Ganga (SMCG-UK), Govt. of Uttarakhand

Organized by :

Naula Foundation

Lakefront, Boat club, Naukuchiatal, Block Bhimtal, District Nainital, Uttarakhand - 263136
Phone : 91- 9536336035 Email: naulafoundation@gmail.com Website : naulafoundation.org

is celebrated as a festival of greenery, peace, prosperity, and environmental conservation in Uttarakhand. Harela, the festival commemorating the new harvest in the Kumaon region of Uttarakhand, is celebrated as the monsoon starts and is considered one of the most important festivals in the entire Kumaon region.

Inspired by the Hon'ble G. Ashok Kumar, Director General of National Mission for Clean Ganga, call for HARELA Festival, the Ministry of Jal

Shakti, Government of India, decided to organize a state-level program, 'Harela Mahotsav-2022', across the Uttarakhand.

This year's celebrations will be part of the ongoing celebrations for 75 years of Independence -Azadi ka Amrit Mahotsav (AKAM).

In Uttarakhand, celebrating the glory of the Pahad-Pani -Parampara, which is believed to be the mythological abode of Lord Shiva and Parvati, various water-saving saplings are planted for rejuvenation of springsheds, traditional natural water sources (origin of rivers, dried springs, Naula-Dhare, Gadhre, Gad, Gajar, Simar, Khav, etc.) across the Himalaya.

In this backdrop, the 'Harela Mahotsav-2022' is scheduled to be organized by the Ministry of Jal Shakti, Government of India with the objective to promote stakeholder engagement and ensure public participation highlighting the significance of initiatives and emphasizing the need for people's participation as well as on "River Conservation Synchronized Development" through an in-depth understanding of Arth Ganga and Catch the Rain Program.

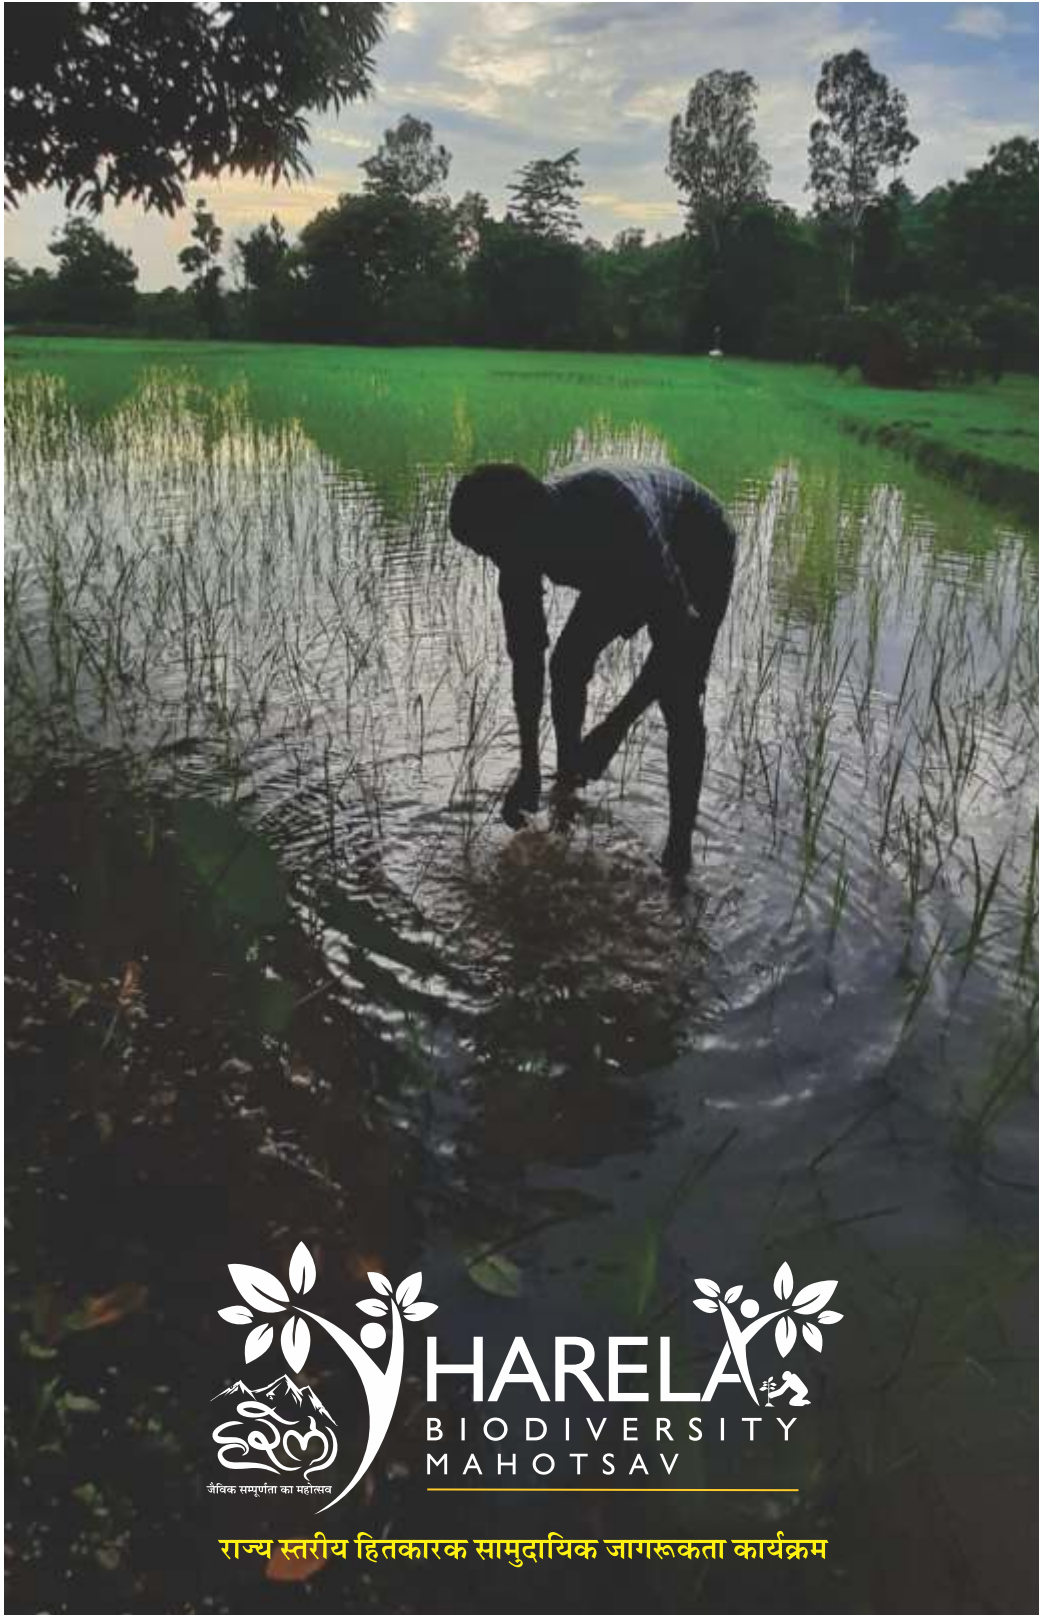

Naula Foundation celebrates Harela Mahotsav every year with the community and utilizes it to inform people about the importance of Pahad-Pani-Parampara. This year we plan to celebrate this festival with the Namami Gange team and associate for a holistic thinking process where 'Namami Gange' evolves to 'Arth Ganga.' The IEC programs would be conducted as:

There will be a series of activities such as a community talk on Holistic Management of Local Rivers and Waterbodies with the involvement of the local population, followed by a "zero-waste" workshop, ZBNF Zero Budget Farming Promotions, Capacity Building Training Program, Promotion of afforestation activities, to make a strong pitch for public outreach and community participation.

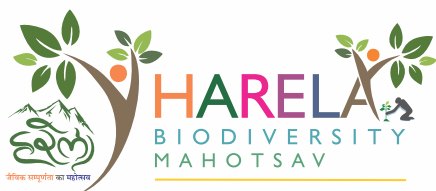

Building up an ecosystem where ecological conservation and economic development will go hand-in-hand to maintain the eternal character of Ganga. Promoting Sustainable Eco-Tourism to Strengthen local economies through the circular economy principle of Vocal for Local.

Various awareness activities to restoring small rivers at local levels through shram daan, cleanliness drives, competitions, plantation drives, planting of fruit trees and building plant nurseries on the banks of local small rivers, and much more on the glory of the Pahad-Pani -Parampara, throughout the month-long Harela Mahotsav.

A total of 8 programs will be conducted in 8 districts of Uttarakhand, and the awareness drive will end in the 8th district of Uttarakhand, viz. Haridwar, where a mega IEC program will be conducted, will directly benefit 108 villages of 627-gram panchayats of 8 districts in Uttarakhand.

To support green economy and sustainable healthy lifestyles of local people

The goal of 'Harela Mahotsav-2022' is to raise awareness among the general villagers on the importance of Nature and the threats it faces. It aims to create tangible actions and solutions to meet those threats that will inevitably impact humans. This would also help the villagers to understand the benefits in terms of trade and access to markets, the local community's economic enhancement, and passenger facilitation.

Better India manages rainwater, the lesser the country's dependence on groundwater. Therefore, successful campaigns like 'Catch the Rain' would also help the villagers recognize the local ecology and ecosystem services, share their traditional knowledge, and know the importance of local streams and water sources. Besides this, we would also have an opportunity to share our views and get ground-level solutions to the critical water problems in the Himalayan region.

'Harela Mahotsav-2022' fulfill one of NMCG's long-term visions for Ganga rejuvenation is to restore viable populations of all endemic and endangered biodiversity of the tributaries of Ganga so that they occupy their full historical range and fulfill their role in maintaining the integrity of the Ganga river ecosystems by involving multiple stakeholders along with conservation & restoration of aquatic biodiversity.

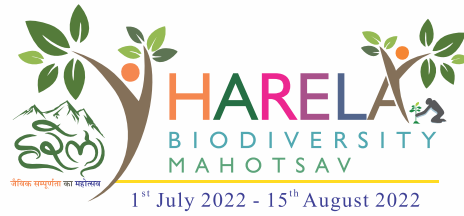

One of the major components of 'Harela Mahotsav-2022' is 'forestry interventions' to enhance the productivity and diversity of the forests in headwater areas and all along the river and its tributaries. The 'Harela Mahotsav-2022' event is scheduled to be held from 1st July to 31st July 2022 at the eight stations.

All IEC activities cum Stakeholders Participation Programme was organized at local School /college /community buildings/conference rooms / Panchayat Bhawan campus. We ensure maximum local communities participate in these IEC activities. Since times immemorial been associated with freshwater resources for their livelihoods, agriculture, fisheries, and drinking water and cultural needs and have been involved in their local management and protection. While science can provide systematic ways of measuring the state, impacts, and finding solutions to problems faced by soils, biodiversity, and freshwater ecosystems, the collaboration between Naula scientists, subject experts, social reformers, local administration, and communities is crucial for the conservation and survival of freshwater ecosystems.

The Stakeholder IEC awareness program was successfully conducted by Naula subject experts on :

1. "Pani ki Kheti se Jaiwik Kheti tak"
2. Community participation is the key to managing and restoring freshwater ecosystems in Uttarakhand
3. Plantation Drive with selective native herbal or special kind plants
4. Sanitation drive of nearby springs or water bodies
5. Conservation and management of soils & their management
6. Natural Resource Management and Rain-fed Farming
7. Capacity Building Training Program on Forest Management, Silviculture, ANR Techniques.
8. Training for Spring Channelization, Mapping & Geo Tagging
9. Watershed Conservation Program

Naula Foundation successfully made all necessary arrangements for the Stakeholder IEC awareness program.

Message from President

I am on behalf of the entire team of community-based nonprofit organization Naula Foundation special thank you note to respected Shri G. Asok Kumar (IAS), Director General, National Mission of Clean Ganga (NMCG), Department of Water Resources, River Development & Ganga Rejuvenation, Ministry of Jal Shakti, Govt. of India & his entire team & Shri Uday Raj Singh, Program Director, State Mission for Clean Ganga (SMCG -UK), PayJal Mantralaya, Govt. of Uttarakhand, Shri Jagmohan Gupta, Senior Advisor, National Mission of Clean Ganga (NMCG), Shri Puran Chand Kapri, Communication Specialist (SMCG), Uttarakhand for their tremendous support to successfully conducted the statewide community participatory IEC activities "Harela Biodiversity Mahotsav." Together with your kind support, we have near to achieve raised awareness among all stakeholders and the poor and neglected community of remote hilly region as per the standards of sustainable development goals.

Also, congratulates & thanks to the entire Naula Foundation family & our respected patrons Padmshri Dr. Yashodhar Mathpal, Padmashri Kalyan Singh Rawat (Maiti) & Shri Manohar Singh Manral & Program Coordinator Mr. Amar Nath & all districts coordinators & their team, Mr. Gagan Prakash Singh, Mr. Sandip Manral, Dr. Shambhu Nautiyal, Dr. Lokesh Joshi, Mr. Bhupendra S Bisht, Ms. Maya Negi, Mr. Ganesh Kathayat, Mr. Mahendra Singh Bisht, Mr. Balwant Bisht, Mr. Harish Vashisht, Mr. Pawan Sharma, Mr. Laxman Singh Rawat, Mr. Sanjay Bisht, Mr. Bhupendra Singh Manral, Mr. Ganesh Karki, Mr. Dev Raj, Mr. Narendra Singh, Mrs. Janki Bisht, etc. for their exceptional efforts & tremendous support for successfully conducted this statewide community participatory IEC activities "Harela Biodiversity Mahotsav-2022" in all eight districts, i.e., Nainital, Almora, Chamoli, Rudrapur, Uttarkashi, Tehri Garhwal, Haridwar & Dehradun of Uttarakhand state.

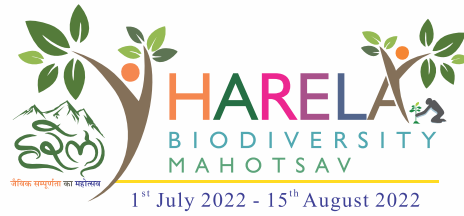

As I firmly believe that it creates tangible actions and solutions to face those threats that will inevitably impact humans. This would also help the villagers understand the benefits of trade and market access, the local community's economic enhancement, and passenger facilitation. Participatory and cooperative decision-making, transparent program implementation, evidence-based policies, transboundary and regional cooperation, and accountability at all levels are essential to ensuring water security in the region to achieve sustainable development goals.

To counter the arduous and immediate threats to human drivers & water security, and climate change, productive, equitable, and sustainable water use should be encouraged through rationalized decision making, improved infrastructure planning, effective management of urban pollution, and enhanced regional cooperation. Therefore, for our glorious cultural identity, we have to restore biodiversity. It is a festival of biological perfection. Springs biodiversity improves soil structure and increases water holding capacity and nutrient content. Spring biodiversity also helps in water conservation, keeping the water cycle moving. Let us

Bishan Singh

Founder President

Message from Director Research

Freshwater is our planet's most precious and vulnerable resource. While essential for life itself, challenges to its provision are too often overlooked. People across our globe and here in Uttarakhand hills face daily difficulty finding safe, clean, potable water. More than 40% of the world's population lives in regions where clean water is increasingly scarce, while every day, nearly 1,000 children die from preventable water-borne and sanitation-related diseases. Freshwater is also a human security concern. Growing demands for food and energy, climate change-induced drought, and more than 260 river basins, home to over three billion people, are shared between two or more countries. These factors lead to potentially worrisome conflicts.

We are committed to high-quality research through education. Now is the time to work together to face challenges and build our understanding of the responses to change, and design solutions for the protection of communities, the environment, and water resources. We also thank our governmental and private sponsors and our collaborators from academia and industry for their support.

As a director, I am proud of our wide-ranging activities, which have proven vital to our region and beyond. We collaborate with various agencies to identify the most effective solutions to the threat of entire classes of emerging contaminants of concern.

We are committed to cross-disciplinary collaboration, dedicated to diversity and inclusion, and have the dexterity to examine timely issues. All our efforts in these and other areas include expanding partnerships with other universities in Uttarakhand and beyond. The Naula Foundation will strive to strengthen collaborative links with national and international institutions, companies, and agencies and with universities and centers within the Himalayan region to address the challenges in water disciplines such as groundwater resources management, flood hazard mitigation, depletion and contamination, crop production, optimum irrigation, groundwater recharge, and global climatic changes concerning water resources and others. Equally important will be to provide networking, training, capacity development, facilitation of consultancy services, and extension and data collection and archiving on traditional and innovative water technologies and experience.

Please visit our website and learn more about our latest research, educational, and outreach activities and engage in our various colloquia. I know you'll be as inspired by the breadth and significance of the work of our students, faculty, and water industry partners as we are. As the Director, I look forward to interacting and working with water researchers at all levels and in all disciplines

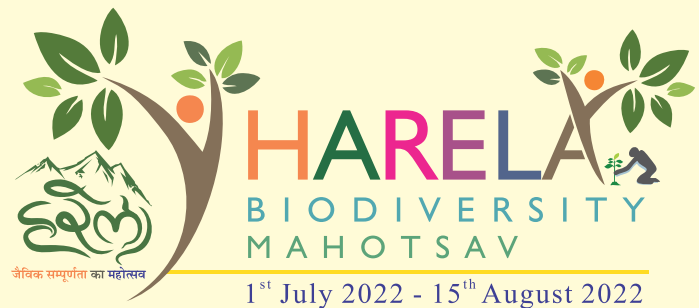

Dr. Naveen Chandra Joshi

Director Research, Naula Foundation

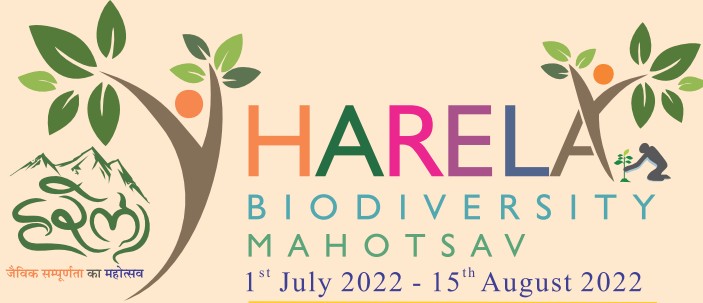

Why is Springs biodiversity important?

Without a wide range of birds, animals, plants and micro-organisms, we cannot have the healthy ecosystems that we rely on to provide us with the air we breathe, the water we drink and the food we eat. And people also value nature of itself.

समृद्धि के बरत- 21 वीं सदी भारत को हरी, प्रतिष्ठित गांधीजी के जीवन और शिक्षा भावी पीढ़ियों के लिए पर्यावरण की रक्षा करें: रामनाथ कोविंद

लंदीन

वैश्वी, इतिहास, राष्ट्रपति रामनाथ कोविंद ने लंदन में एक कार्यक्रम में पर्यावरण की रक्षा के लिए गांधीजी के जीवन और शिक्षा को याद करवाया। उन्होंने कहा कि हमें पर्यावरण की रक्षा करनी चाहिए और इसे हमारे जीवन का हिस्सा बनाना चाहिए। उन्होंने कहा कि हमें अपने जीवन में गांधीजी के शिक्षा को लागू करना चाहिए और पर्यावरण की रक्षा करना चाहिए।

सैक्यूलर व्यवस्था को रक्ष-सामन

लंदन में एक कार्यक्रम में राष्ट्रपति रामनाथ कोविंद ने पर्यावरण की रक्षा के लिए गांधीजी के जीवन और शिक्षा को याद करवाया। उन्होंने कहा कि हमें पर्यावरण की रक्षा करनी चाहिए और इसे हमारे जीवन का हिस्सा बनाना चाहिए। उन्होंने कहा कि हमें अपने जीवन में गांधीजी के शिक्षा को लागू करना चाहिए और पर्यावरण की रक्षा करना चाहिए।

महोदय,

प्रगतिशील भारत की आजादी के 75 साल, में मनाये जाने वाला 'आजादी का अमृत महोत्सव' भारत के उन सभी लोगों को समर्पित है, जिन्होंने भारत को अपनी विकासवादी यात्रा में लाने में महत्वपूर्ण भूमिका निभाई है जो आत्मनिर्भर की भावना से प्रेरित है। ताजे जल के भावी सीमित संसाधनों को बेहतर करने में पहाड़-पानी-परम्परा की परंपरागत जल संरक्षण व संवर्धन की विधियों, जैवविविधता के सुरक्षित रख-रखाव एवं सतत विकास का लक्ष्य प्राप्त करने के लिये 'नमामि गंगे' परियोजना को 'अर्थ-गंगा' जैसे एक सतत विकास मॉडल को अपनाने के लिये पारस्परिक आदान-प्रदान तथा अवसरों की साझेदारी में आज किसानों की सर्वांगीण प्रतिभागिता अति आवश्यक है। यह सुनिश्चित करने के लिये हमें अब किसानों के लिये जल की और जल के लिये किसानों की आवश्यकता स्वीकार करने का समय आ गया है। अतः 'अर्थ-गंगा' के पारिस्थितिक पर्यटन, गंगा वन्यजीव संरक्षण और जल प्रबंधन कार्यक्रमों में उनकी सहभागिता हेतु नमामि गंगे, राष्ट्रीय स्वच्छ गंगा मिशन, जल शक्ति मंत्रालय, भारत सरकार द्वारा सहयोजित नौला फाउंडेशन द्वारा आयोजित, पहाड़-पानी-परम्परा के संरक्षण हेतु जैविक सम्पूर्णता का उत्सव, हरैला महोत्सव-2022 के तहत हरिद्वार स्थित गुरुकुल कांगड़ी डीम्ड विश्वविद्यालय के मुख्य सभागार में शनिवार, दिनांक 13 अगस्त 2022, प्रातः 11 बजे

राज्य स्तरीय हितकारक सामुदायिक जागरूकता कार्यशाला

'अर्थ-गंगा' एक सतत विकास मॉडल की साझेदारी में किसानों की सर्वांगीण प्रतिभागिता

में आपकी गरिमामयी उपस्थिति प्रार्थनीय है।

Our aim is to raise awareness about the threats and challenges faced by springs biodiversity; and to promote efforts for traditional springs biodiversity conservation and sustainable Pahad-Pani-Parampara management.

Maintaining traditional springs biodiversity will help us combat the climate crisis, alleviate poverty, support human health, and leave our children and grandchildren the bountiful and beautiful legacy of living forests that we enjoy today. Clearly, no task could be more timely or important. Achieving these ambitious targets will require decisive action and close collaboration at all levels.

National Mission for Clean Ganga
